

BRAD MITCHELL, Ed.D.

SENIOR INSTRUCTIONAL DESIGNER | AI & LEARNING EXPERIENCE DESIGN

bradmitchell612@gmail.com • 573-239-9267 • linkedin.com/in/bradsmitchell • Columbia, MO (Remote)

PROFESSIONAL SUMMARY

Learning experience design leader with 18 years across instructional design, multimedia production, content strategy, and team leadership. Specializes in translating complex, fast-moving technical subject matter, including AI and cybersecurity, into practice-aligned learning. Designs and deploys custom AI agents and prompt-engineered workflows that accelerate instructional design without sacrificing quality. Ed.D. in Educational Leadership and Policy Analysis; active researcher and writer on media literacy and AI adoption in instructional design.

EXPERIENCE

ISC2 Feb 2025 – Present  
Senior Instructional Designer Columbia, MO (Remote)

Global nonprofit focused on cybersecurity certification and education.

- Designed 8 courses in 2025 that reached 2,905 learners at a 4.49/5.0 average rating, outperforming the 4 4.31/5.0 catalog-wide average.
- Built and deployed a custom AI agent in Microsoft Copilot Studio for the instructional design team: a 40+ file knowledge base with 15+ operating modes spanning content audit, co-creation, quality review, outline scoping, and SME communication, then wrote the documentation and onboarded the team to it.
- Partnered with 17 SMEs to design 22 AI and cybersecurity courses from initial scoping through final QA review, translating AI risk management, governance, and secure-by-design principles into practice-aligned content.
- Built out media and asset production capability for the Instructional Design team, then trained the full staff, eliminating the need for a dedicated production team.

Missouri Online Aug 2020 – Feb 2025  
Design Manager Columbia, MO

University of Missouri–Columbia.

- Rebuilt Missouri Online’s entire course development process from the ground up, including project timeline, workflow steps, and faculty collaboration framework, cutting average course build time from multiple semesters to a single semester across hundreds of courses per year.
- Led a remote, multi-campus design team of 4 to 7 designers across all four UM System campuses (~68,500 students) and was the only manager to retain a fully intact team throughout the entire tenure.
- Secured Dean-level buy-in outside my department to redesign online course delivery for the Missouri School of Journalism in Canvas: ~100 courses over 3 years, achieving full faculty adoption and strong student feedback.

University of Missouri–Columbia Jan 2020 – Dec 2024  
Adjunct Instructor (Part-time) Columbia, MO

- Taught strategic communication and journalism at the Missouri School of Journalism, guiding students through four hands-on projects spanning news gathering, interviewing, story structure, and video production.
- Brought professional instructional design practice into the classroom, applying adult learning and curriculum design principles to undergraduate education.

University of Missouri–Columbia Jan 2015 – Jul 2020  
Instructional Developer / Media Production Coordinator Columbia, MO

- Designed and developed roughly 50 online courses and projects per year, applying instructional design best practices and accessibility standards (ADA, WCAG).
- Designed, outfitted, and physically built multimedia production studios across multiple campuses, establishing in-house video and media production capability from the ground up.
- Partnered directly with faculty across departments to integrate new instructional technologies, laying the groundwork for the scalable design process later built out as Design Manager.

Missouri State University Jul 2008 – Dec 2014  
New Media Producer Springfield, MO

- Owned digital media and communication strategy for the university, producing content across web, video, and multimedia channels that shaped brand presence and public engagement, building the multimedia production skills (editing, motion graphics, visual storytelling) that became the technical backbone of an instructional design career.

**Audible, Inc. & Premier Audio Productions**  
*Dialog Editor & Post-Production Associate / Audio Engineer*

Sep 2005 – Jul 2008  
Newark, NJ / Basel, Switzerland

- Edited and produced audio for film, audiobooks, and music across two production companies, building a foundation in sound design that continues to inform multimedia production work today.

EDUCATION

|                                                                                                                   |             |
|-------------------------------------------------------------------------------------------------------------------|-------------|
| <b>University of Missouri–Columbia</b><br>Doctor of Education (Ed.D.), Educational Leadership and Policy Analysis | 2013 – 2020 |
| <b>Missouri State University</b><br>Master of Science in Education, Educational Technology                        | 2010 – 2013 |
| <b>Vancouver Film School</b><br>Sound Design for Visual Media                                                     | 2004        |
| <b>Missouri State University</b><br>Bachelor of Science, Mass Media Studies & Computer Information Systems        | 1999 – 2003 |

SKILLS

**Instructional Design & LXD:** Learning Experience Design · Instructional Design · ADDIE · SAM · Adult Learning Theory · Curriculum Design & Architecture · Bloom's Taxonomy · Learning Objectives · Assessment Design

**AI for Learning:** Generative AI · Prompt Engineering · Large Language Models (LLMs) · AI Agent Design · Microsoft Copilot Studio · Claude · ChatGPT · AI-Enabled Learning Design

**Development & Delivery:** E-Learning Development · SCORM · xAPI · Canvas LMS · LMS/LXP Administration · Multimedia & Video Production · Camtasia · Adobe Creative Suite · Accessibility (ADA, WCAG)

**Strategy & Leadership:** Content Strategy · Learning Measurement & Analytics · Stakeholder & SME Management · Project Management · Team Leadership · Process Design
